0701 90 10	similaris, Epitrix		protection organisation in accordance with	
0701 90 50	subcrinita and		relevant international standards for phytosanitary	
0701 90 90	Epitrix tuberis are		measures;	
ex 0709 99 90	known to be		(b) the potato tubers have been washed or	
	present		brushed so that there is no more than	
			0,1 % of soil remaining, or have undergone an	
			equivalent method specifically applied in order	
			to achieve the same outcome and remove the	
			specified organisms concerned and to ensure	
			that there is no risk of spreading the specified	
			organisms.	
			(3) The certificate shall include the following:	
			(a) it shall include the information that the potato	
			tubers have been found free from the specified	
			organisms concerned and from any of their	
			symptoms and do not contain more than 0,1 % of	

soil in an officia	examination carried out
immediately pri	or to export;
(b) it shall includ	le the information that the
packaging mate	rial in which potato tubers are
imported is clea	n. Where the information set out
in point (2) (a) is	given, the name of the pest-free
area shall be me	entioned under the heading 'Place
of origin'.	

In case of treatment, this has to be specified in the rubric "disinfestation and/or disinfection treatment".
